ABOUT THE BUSINESS

With an '**Eye On Tomorrow**' and a legacy spanning over **30 years**, Vinayak Technoplast stands as a premier **One-Stop Solution** for the plastic manufacturing industry. Inspired and envisioned by distinguished engineering leadership from **IIT-BHU**, we transcend traditional moulding by offering a seamless ecosystem that integrates **product design, rapid mould development, precision injection moulding, and turnkey assembly**—all under one roof. Operating from a strategic **35,000 sq. ft. facility in Delhi**, we are an **ISO 9001:2015 certified partner** trusted by market leaders in the **Automotive, Medical, Electrical,** and various other sectors to deliver cost-competitive solutions with a philosophy of getting it '**First Time Right, Every Time**'. Backed by **state-of-the-art toolroom facilities** and a **suite of 60+ machines** ranging from **75 to 850 Tonnes**, we specialize in high-precision engineering with lead times as short as **4-6 weeks.**

Vinayak Technoplast: The Complete Plastic Injection Moulding Solution

An ISO 9001:2015 certified company with over 30 years of experience, offering custom plastic injection moulding as a one-stop solution, from initial design and mould development to component moulding, final assembly, and delivery across diverse industries.

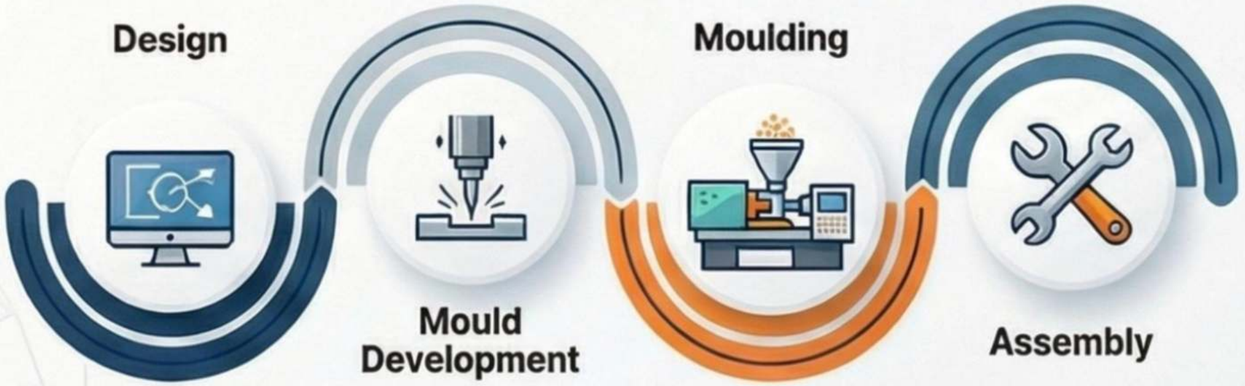

Company Profile & Core Strengths

30+ Years of Industry Experience

A leading custom injection moulder based in Delhi, India.

Certified Quality & Reliability

An ISO 9001:2015 certified company committed to timely, high-quality delivery.

A Complete One-Stop Solution

Managing the entire process: design, mould development, moulding, and assembly.

Market Reach & Capabilities

State-of-the-Art Manufacturing

Facilities include HAAS VMC machines and moulding machines up to 850 tonnes.

Automotive Industry | **40%**

Medical & Electrical | **30%**

Home Appliances, Power Tools, Household | **30%**

VINAYAK
TECHNOPLAST

Our Integrated Workflow: From Concept to Final Component

Design & Development

Conceptualisation, CAD modelling, and simulation.

Tool & Mould Manufacturing

Precision engineering in our in-house toolroom.

Injection Moulding

High-volume production with advanced machinery.

Quality Assurance

Rigorous testing and inspection at every stage.

Assembly & Supply

Final assembly, packaging, and turnkey manufacturing.

Vinayak Technoplast specialises in design, mould development, and moulding solutions all under one roof. This integrated approach ensures greater efficiency, stringent quality control, and reduced lead times for our clients.

VINAYAK TECHNOPLAST

BUSINESS MODEL

01

CENTRALIZED PRODUCTION

The entire production process is carried out in our own facilities to ensure quality control and cost efficiency.

02

RAW MATERIAL PROCUREMENT

Working with trusted suppliers to maintain quality and supply chain continuity.

03

DISTRIBUTION & LOGISTICS

Products are delivered to customers through an integrated logistics system, with on-time delivery support.

04

B2B CUSTOMER RELATIONSHIP

Focus on providing solutions for business clients, with customized services and order volume flexibility.

OUR CORE PRODUCTS

We produce a wide range of high-quality products designed to meet the needs of industry and business (B2B) customers. Each of our products is developed through a precision manufacturing process and rigorous quality testing.

MEDICAL INDUSTRY COMPONENTS

Critical items such as suction units, PC jars, needle cutters (Nil-Sharps), etc. ensuring strict adherence to quality standards for our medical partners

MASS CONSUMER PRODUCTS

Such as switches, energy meters, LED light housings, MCB's and multi-plugs.

AUTOMOTIVE EXTERIOR PARTS

High-precision parts such as EV kits, visors, headlamps, tail lamps, reflectors, etc, serving two-wheelers, four-wheelers, and tractors.

PRECISION INDUSTRIAL COMPONENTS

Mechanical and technical parts for industrial machinery, vehicles, or heavy equipment.

VINAYAK TECHNOPLAST

DELIVERING CRITICAL COMPONENTS
ACROSS DEMANDING AND CRITICAL INDUSTRIES

VINAYAK TECHNOPLAST

AUTOMOTIVE INDUSTRY

We have produced an extensive range of products for the automobile industry, which includes, automotive parts and exterior parts such as EV body parts, visors, headlamps, tail lamps, reflectors, side beedings, work lamps, silencer covers and blinkers.

MEDICAL INDUSTRY

We manufacture an extensive range of components for our partners from the medical industry. We strive hard to maintain the standards of performance, quality and aesthetics.

HOME APPLIANCES

We manufacture assemblies and parts for home appliances of some of the country's leading home appliances manufacturers.

POWER TOOLS AND APPLIANCES

We are engaged in the manufacturing of a wide range of parts for power tools and other appliances. We manufacture robust internal and external parts for power tools and appliances

ELECTRICAL PARTS

We are one of the largest suppliers of plastic moulded parts for electrical products. Our understanding, expertise and attention to detail make us a successful partner of electrical manufacturers.

HOUSEHOLD PRODUCTS

We are engaged in the manufacturing of a wide range of innovative and useful products used in the kitchen and general household

PRECISION BEGINS IN OUR STATE-OF-THE-ART TOOLROOM

KEY CAPABILITIES

- Development of complex moulds (Single plate, two plate, cold runner with an average lead time of 4-6 months.
- Full capacity for the manufacturing and ongoing maintainence of over 50 moulds.

FEATURED TECHNOLOGY

- **CNC Machining:** HAAS VF2 & VF3 VMCs for travels upto 1000mm x 508mm.
- **Electrical discharge Machining: Electronica and JOEMARS EDM machines.**
- **Precision cutting:** Electronica Sprintcut Wire Cut Machines.

SUSTAINABILITY & COMPLIANCE

We believe that long-term business success must go hand in hand with social and environmental responsibility. Therefore, we are committed to sustainable manufacturing practices and compliance with applicable regulations.

- **EMISSION AND WASTE REDUCTION**
- **LEAN PRODUCTION SYSTEM**
- **ENERGY EFFICIENT**
- **WATER AND CHEMICAL MANAGEMENT**

OUR ROADMAP AHEAD

We have medium and long-term strategic plans to ensure sustainable growth, increased competitiveness and business relevance in the face of market changes..We have medium and long-term strategic plans to ensure sustainable growth, increased competitiveness and business relevance in the face of market changes.

NEXT 1-2 YEARS

- Modernization of production machines and technology
- Increase in production capacity by up to 25%
- Digitalization of management and reporting systems

NEXT 3-5 YEARS

- Expansion into regional and international markets
- Development of new products based on industry needs
- Building strategic partnerships with other industry players

LONG-TERM

- Becoming a pioneer of sustainable manufacturing at the national level
- Implementing a renewable energy-based production system
