ABOUT US

Vinayak Technoplast is a premier one-stop ecosystem for the global plastic manufacturing industry. Inspired by the engineering vision of Mr. Arjun Kumar Agarwal (IIT-BHU) and driven by Mr. Sandeep Agarwal, we transcend traditional moulding to deliver high-precision, turnkey solutions from concept design to final assemblies all under one roof.

30+

*Years of
Experience*

100M+

*Component
delivered*

35000
sq. ft

*Manufacturing
Facility*

850
Tonnes

*of over 30 PLC-
operated injection
moulding machines*

WIRE HARNESSING

2W EV Wiring Harness

- The electric drivetrain of an HEV or EV is mainly composed of a high-voltage battery, inverters, and motors.
- High-voltage (HV) wiring harnesses connect all the components with each other.

4W EV Wiring Harness

- Optimise power distribution for enhanced electric vehicle performance
- Advanced Safety Features ensure a secure electrical system.
- Seamless Integration with EV architecture enhances overall performance
